Perched overlooking the calm waters of Port Hacking, this Design Pools project has capitalised on the enviable location to deliver a show-stopping pool that is undoubtedly the centrepiece of this Lilli Pilli home.

With projects like this, Design Pools has cemented its reputation as a leading pool builder in Sydney, with a commitment to delivering the region's most innovative, best quality and best value for money pools.

As well as being professional pool builders, the members of the Design Pools team are also qualified and accredited builders and carpenters. This means that as well as a superior pool, the company is also able to design and construct complete outdoor entertaining and pool landscaping solutions including decking, cabanas, pergolas and even pool houses and home renovations.

Led by Brian Formosa and David Wylie, Design Pools services suburbs throughout Sydney, from Campbelltown to the Northern Beaches.
